SYNERGI ELECTRIC ADVANCED RELIABILITY

Course code: SY-37
Duration: 3 days

Prerequisite:
Completion of SY-35 Synergi Electric standard course and Synergi modelling experience. This course assumes that you are proficient in the use of the latest version of the product.

DESCRIPTION

In this course you will learn how to use the Synergi Reliability module. You will obtain in-depth knowledge of advanced reliability analysis and modelling.

LEARNING OBJECTIVES

You will gain more information and understanding of the advanced reliability features of Synergi Electric. Your proficiency with the reliability features will increase, giving you more value from the model and the software.

TARGET GROUP

Engineers familiar and comfortable with subjects in the standard course, engineers looking to use the Reliability module in Synergi Electric and engineers who use the Reliability module in Synergi and want to learn about the latest advancements in the software or refresh their knowledge in Synergi Electric.
