SYNERGI™ LIFE

Consulting - Notifications

Let Synergi Life remind your users about deadlines

Make the job easier for the Synergi Life administrator. Configure the Notification module to follow up case processing in Synergi Life. With the Notification module Synergi Life sends out reminders for overdue actions and cases for you. Synergi Life can be set up to send out notifications based on any criteria on cases or actions. The notification is sent as an e-mail to the person in charge of the case or action.

The Notification module is activated on the Synergi Life server and configured according to company needs. The notification is triggered using web services so that the notification e-mails are sent at configurable intervals.
